1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jonathon Jaech on 5/9/07.

The application has been amended as follows:

Please amend the specification as follows:

On line 2 of page 1, after "09/325,524 please insert "now US 6,403,750"

On page 44, please delete lines 2 and 3.

Please amend the claims as follows:

In claim 104, on the fourth to the last line, after "wherein the" please insert the following:

"process includes the steps of forming the".

In claim 104, on the third to the last line, please delete "is formed".

In claim 127, on the third to the last line, after "wherein the" please insert the following:

"process includes the steps of forming the".

In claim 127, on the third to the last line, please delete "is formed".

The amendments to the claims clarify that the claimed processes include the specific method of making the thermoplastic preceramic polymer as was originally found in claims 124 and 125. Applicants intended to include such a limitation in the amended claims filed 3/2/07 but the Examiner was concerned that the language in the amended claims reflected a product by process limitation rather than an actual process limitation. The above language eliminates any confusion.

The amendment to the specification updates the status of the parent application and deletes reference to Figure 4. No such figure was filed in this application (see for instance the transmittal letter of 10/6/2000).

2. The following is an examiner's statement of reasons for allowance: For reasons consistent with that noted in the previous office action, the instant claims are neither taught nor suggested by the prior art. Both independent claims 104 and 127 include the specific process of making the thermoplastic preceramic polymer that is neither taught nor suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Margaret G. Moore whose telephone number is 571-272-1090. The examiner can normally be reached on Monday to Wednesday and Friday, 10am to 4pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski can be reached on (571) 272-1302. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
